

Greek Orthodox Community of South Australia

Our Faith. Our Culture. Our Community.

A visual identity system for consistent, high-value presentation across the web, print and community materials.
Prepared as a handover reference ahead of website development.

Mission, Vision & Values

Mission

To provide the best quality services that promote independence, health and wellbeing within our community. We do this in a way that is culturally appropriate, flexible, respects and supports people's choices and meets their needs and goals. We acknowledge and value our people and adapt to the changing needs of our diverse community.

Vision

To promote the highest quality care through information dissemination and continuous improvement in a culturally sensitive and safe environment of service — incorporating informed choice and control, flexibility, confidentiality, respect and social inclusion that benefit clients, families and staff.

Values

Our values set the standard of behaviour and attitude expected from staff and volunteers, ensuring a high quality, safe and positive environment for all our people.

- **Dignity & respect**
Respecting your choices, preferences and individuality.
- **Quality service**
Professional and continuously improving.
- **Teamwork**
Working together to achieve a common goal.
- **Privacy & confidentiality**
Handling personal information with privacy and confidentiality.
- **Caring**
Committed, thoughtful, supportive and considerate.
- **Accountability**
Having pride and taking responsibility.
- **Open communication**
Improving understanding through listening, sharing and feedback.

Logo & Wordmark

This kit ships with a placeholder monogram built in-system so pages can be designed today. Swap it for the organisation's official artwork as soon as high-resolution files are supplied — every lockup below should update together.

Minimum size

Never render the monogram smaller than 24px (digital) or 0.3in (print) — the lettering must stay legible.

File formats to request

Vector (SVG/EPS) master files, plus transparent PNGs at 1x/2x/3x for web and app use.

Do

- Use the approved colour variants only.
- Preserve the clear space around the mark.
- Scale proportionally in both directions.

Don't

- Recolour, stretch, rotate or add drop shadows.
- Place on busy photography without a solid or scrim backing.
- Combine with unapproved taglines or icons.

Colour Palette

Greek Blue

#0D5EAF · RGB 13,94,175

Primary — headers, navigation, primary buttons

Aegean Sky

#5CB8E6 · RGB 92,184,230

Secondary — hover states, tags, highlights

Heritage Gold

#D4AF37 · RGB 212,175,55

Accent — calls to action, key stats, dividers

Warm White

#FAF8F8 · RGB 250,250,248

Base background for page and card surfaces

Soft Grey

#F2F4F7 · RGB 242,244,247

Section fills, cards, subtle separation

Charcoal

#24323F · RGB 36,50,63

Body text, footers, dark section backgrounds

Usage ratio

Aim for roughly 60% Warm White / Soft Grey, 30% Greek Blue, 10% Heritage Gold across any page. Gold is an accent — reserve it for calls to action, key numbers and dividers rather than large fills or body copy, where contrast is too low for comfortable reading.

Typography

A classic serif and modern sans pairing — reflecting tradition with contemporary clarity.

Iconography & Pattern

A consistent 2px outline stroke keeps icons feeling calm and precise, never decorative.

Greek key motif

Use the meander sparingly — as a thin border, divider, or footer detail in Greek Blue or Heritage Gold. Never scale it up as a full background texture or repeat it behind body text.

Photography & Imagery

Warm, authentic, community-focused photography. Real members, natural light, genuine moments — never staged stock photography.

Do

- Capture real members, clergy and events.
- Favour natural light and candid moments.
- Include the sea, churches and dance in rotation.

Don't

- Use generic stock photography.
- Apply heavy filters or colour casts.
- Crop faces awkwardly or place text over eyes.

Social Media Post

Template proportions: 1:1 for Instagram/Facebook feed. Keep the gold CTA and eyebrow label consistent across posts; swap only the photo and headline.

Our Faith. Our Culture. Our Community.

This kit is the shared reference for everything the organisation publishes — website, print, signage and social. Questions on applying it should go to your communications lead before commencing new materials.
